Town Agent's Report

For the Year Ending January 31, 1933

There was received, according to the books of the previous agent, from the Selectmen tax bills for unpaid taxes amounting to $1,743.12. There has been collected during the year $2,066.53 and abated for different causes $81.20, making a total cancelled from the town books of $2,147.73. Rental of town property amounted to $157.50. For a list of uncollected taxes due the town the reader is referred to the statement of assets in the Selectmen's balance sheet. These figures include accrued interest to February 1, 1933.

All property included in the levy of years prior to 1930 is being deeded to the town as rapidly as circumstances will allow, so that in future years this item will not appear under the head of unredeemed taxes. The law calls for a collector's deed of all property on which the taxes remain unpaid two years following the collector's sale, and it may be said here, to clear up misunderstandings that may exist in places, that a collector's deed conveys a good sound title provided the law's requirements in selling, notifying, etc., have been strictly complied with. Delinquent taxpayers should understand that once a collector's deed has been passed the property is no longer redeemable but is subject to sale by the town in open market to the highest bidder. In years past most New Hampshire towns have pursued a very liberal policy toward delinquents but the matter of tax titles is being more strictly regulated by the State Tax Commission who are demanding that the law be complied with after the property owner has been given a fair chance to pay.

EDWARD A. BARNEY, Town Agent.
